DIGIT DETECTIVE

TANGY TUESDAY PUZZLE PACK
3.2.11

Name: _____

tangmath.com © 2017-18 Greg Tang

To solve the puzzle, here's what to do: cross off the numbers that fit each clue.
With clever sleuth-work, when you're done, you'll be left with only one!

8, 16, 24 ...

Odd and greater
than 7×9

Area of rectangle
with sides of 4
and 6

Inches in 5 feet

$5 \times 8 + 4$

$36 \div 6 + 20$

What number am I?

Pumpkin Pie Recipe

Give this page to a friend and ask him or her to prompt you for words to fill in the blanks of the story below. Once your words are written in, read the story out loud. It might be silly, so be prepared to laugh!

Ingredients:

2 eggs
½ cup sugar
¼ tsp cinnamon
¼ tsp ginger
½ cup milk
1 can (15 oz.)
pumpkin

1 pie dough

Recipe makes 1 pie.

Crack the eggs into a _____ and beat
noun (container)
thoroughly with an electric _____. Add the other
noun (thing)
ingredients and mix until it is nice and _____. Use
adjective
your _____ to pat the dough into a pie pan, and
body parts
then pour in the pumpkin mixture. Bake in a _____
number
degree oven for _____ minutes. You'll know the pie is
number
done when a _____ inserted into the center
noun (thing)
comes out _____. Enjoy!
adjective

Then use the numbers in the recipe above to solve these problems:

1. You're having a large group for Thanksgiving, so you plan to make 4 pies. If you start with a dozen eggs, how many will you have left after making the pies? _____
2. Instead of four 15 oz. cans, you buy a 68 oz. can of pumpkin at the grocery warehouse. After making the four pies, you have _____ ounces of pumpkin left.
3. If you cut two of the pies into 8 slices and the other two pies into 6 slices, how many slices of pie will you have all together? _____

Tangy Turkey Day

Use the number bonds to solve the equation below! (+++)

$$\text{Turkey} + 2 \times \text{Pie} = \underline{\hspace{2cm}}$$
