

Name:

A.

$$7 - 4 = \boxed{3}$$

B.

$$8 - 2 = \square$$

C.

$$9 - 7 = \square$$

D.

$$10 - 3 = \square$$

Name:

A.

$$7 - 2 = \square$$

B.

$$6 - 5 = \square$$

C.

$$8 - 4 = \square$$

D.

$$9 - 3 = \square$$

Name:

A.

$$9 - 2 = \square$$

B.

$$6 - 4 = \square$$

C.

$$8 - 5 = \square$$

D.

$$10 - 6 = \square$$

Name: _____

Imagine the total on a ten frame. Imagine crossing off part.

How many are left? Draw to check your thinking.

a. $6 - 3 = \underline{\quad}$

b. $8 - 4 = \underline{\quad}$

c. $7 - 6 = \underline{\quad}$

d. $7 - 2 = \underline{\quad}$

e. $9 - 3 = \underline{\quad}$

f. $8 - 5 = \underline{\quad}$

Name: _____

MATCHING - B

Fill in the missing totals in each equation.

Then draw a line from the equation on the left to the matching ten-frame on the right.

$7 - 1 = \underline{\quad 6 \quad}$

$9 - 7 = \underline{\quad \quad}$

$10 - 3 = \underline{\quad \quad}$

$8 - 6 = \underline{\quad \quad}$

$6 - 5 = \underline{\quad \quad}$
