

A.

True or False

$$3 = 10 - 6$$

4

B.

True or False

$$6 + 4 = 10$$

C.

True or False

$$8 = 3 + 5$$

D.

True or False

$$7 - 2 = 6$$

Name: \_\_\_\_\_

A.

True or False

$$4 = 9 - 5$$

B.

True or False

$$6 - 3 = 2$$

C.

True or False

$$9 = 2 + 7$$

D.

True or False

$$1 = 8 - 6$$

A.

True or False

$$\begin{array}{c} 4+2 = 6-1 \\ \underbrace{\quad\quad} \quad \underbrace{\quad\quad} \\ 6 \qquad\qquad 5 \end{array}$$

B.

True or False

$$7-3 = 1+4$$

C.

True or False

$$10-4 = 2+5$$

D.

True or False

$$5+4 = 9-0$$

Name: \_\_\_\_\_

In the picture graph below, outline 2 circles and 4 triangles.

a. Outline 1 more circle. How many circles are outlined?

$$\underline{2} + \underline{\quad} = \underline{\quad}$$

b. Cross off 1 triangle. How many triangles are left?

$$\underline{4} - \underline{\quad} = \underline{\quad}$$

c.

true or  false

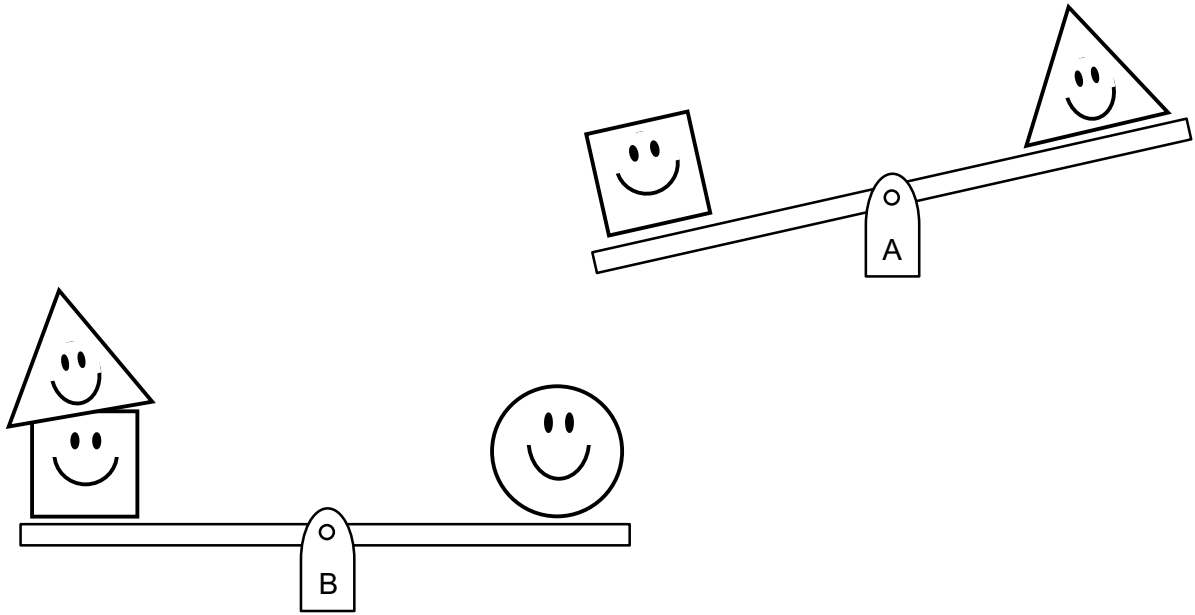

$$2 + 1 = 4 - 1$$

## TEETER TOTS - A

Use numbers from the bank to correctly fill the blanks with the value (weight) of each shape.  
Hint: The end of the teeter-totter with the heavier shape(s) will go down; the end with the lighter shape(s) will go up. If the teeter-totter is balanced, the shapes are equal in weight.
