MEASURE UP! - G

Use the hints at the top to complete the table at the bottom.

Helpful Hints:

If the object is shorter than the length of your arm (from elbow to fingertips), use a **ruler**.

If the object is shorter than your height, use a **yardstick** or **meter stick**.

For longer objects, use a **measuring tape**.

Find something in your classroom, school, or home that is close to the size given below. Then complete the table.
