

A.

8 divided into groups of 4 = \_\_\_\_\_

$$\square \times 4 = 8$$

B.

15 divided into groups of 5 = \_\_\_\_\_

$$\square \times 5 = 15$$

C.

12 divided into groups of 3 = \_\_\_\_\_

$$\square \times 3 = 12$$

D.

10 divided into groups of 2 = \_\_\_\_\_

$$\square \times 2 = 10$$

A.

SOLVE BY GROUPING

$12 \div 6 = \underline{\quad}$

What is the total? \_\_\_\_\_

How many in each group? \_\_\_\_\_

Multiplication: \_\_\_\_\_

How many groups? \_\_\_\_\_

B.

SOLVE BY GROUPING

$24 \div 8 = \underline{\quad}$

What is the total? \_\_\_\_\_

How many in each group? \_\_\_\_\_

Multiplication: \_\_\_\_\_

How many groups? \_\_\_\_\_

C.

SOLVE BY GROUPING

$35 \div 7 = \underline{\quad}$

What is the total? \_\_\_\_\_

How many in each group? \_\_\_\_\_

Multiplication: \_\_\_\_\_

How many groups? \_\_\_\_\_

D.

SOLVE BY GROUPING

$36 \div 9 = \underline{\quad}$

What is the total? \_\_\_\_\_

How many in each group? \_\_\_\_\_

Multiplication: \_\_\_\_\_

How many groups? \_\_\_\_\_

A.

SOLVE BY GROUPING

$$21 \div 7 = \underline{\quad}$$

What is the total? \_\_\_\_\_

How many in each group? \_\_\_\_\_

Multiplication: \_\_\_\_\_

How many groups? \_\_\_\_\_

B.

SOLVE BY GROUPING

$$20 \div 10 = \underline{\quad}$$

What is the total? \_\_\_\_\_

How many in each group? \_\_\_\_\_

Multiplication: \_\_\_\_\_

How many groups? \_\_\_\_\_

C.

SOLVE BY GROUPING

$$32 \div 8 = \underline{\quad}$$

What is the total? \_\_\_\_\_

How many in each group? \_\_\_\_\_

Multiplication: \_\_\_\_\_

How many groups? \_\_\_\_\_

D.

SOLVE BY GROUPING

$$45 \div 9 = \underline{\quad}$$

What is the total? \_\_\_\_\_

How many in each group? \_\_\_\_\_

Multiplication: \_\_\_\_\_

How many groups? \_\_\_\_\_

Name:

Martin has a chicken that lays 2 eggs on some days, and no eggs on other days. Last week, his chicken laid a total of 8 eggs.

a. Draw a bar model to show how many days Martin's chicken laid eggs.

b. Write addition, subtraction, multiplication, and division equations that show how many days Martin's chicken laid eggs.

Addition:

\_\_\_\_\_

Subtraction:

\_\_\_\_\_

Multiplication:

\_\_\_\_\_

Division:

\_\_\_\_\_

Name: \_\_\_\_\_

## MATCHING - B

Draw lines to connect each diagram on the left with the matching description on the right.

- 12 divided into 3 groups
- 6 divided into groups of 2
- 12 divided into groups of 3
- 20 divided into groups of 4
- 20 divided into 4 groups
