

Name: _____

A.

24 is how many times 8? 3

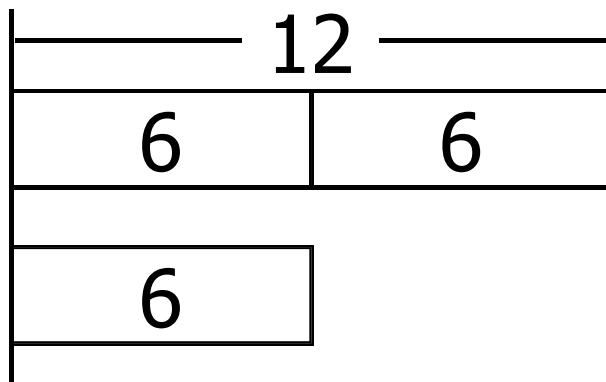

Write a multiplication equation:

$$3 \times 8 = 24$$

B.

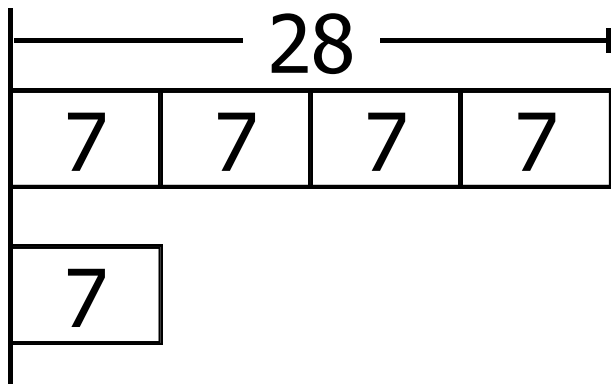

12 is how many times 6? _____

Write a multiplication equation:

C.

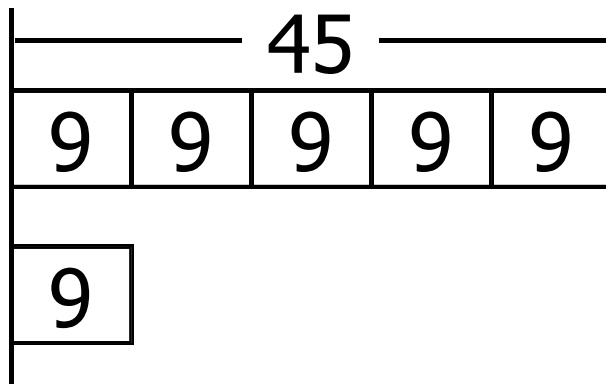

28 is how many times 7? _____

Write a multiplication equation:

D.

45 is how many times 9? _____

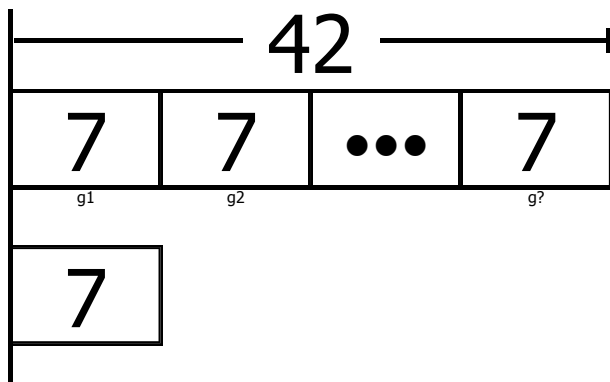

Write a multiplication equation:

Name: _____

A.

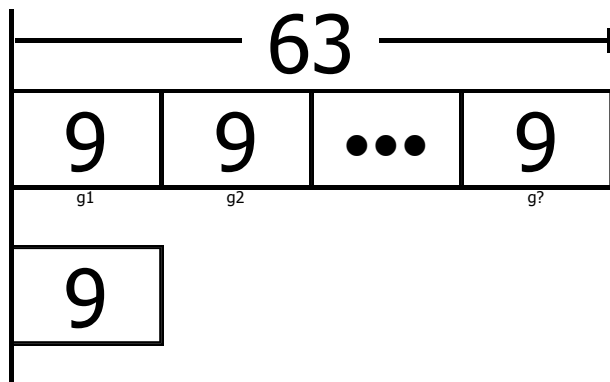

42 is how many times 7? _____

Write a multiplication equation:

B.

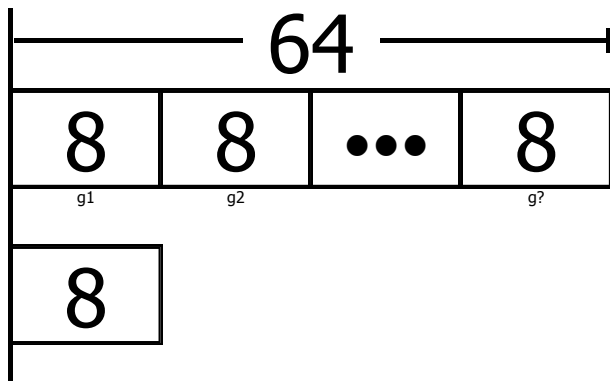

63 is how many times 9? _____

Write a multiplication equation:

C.

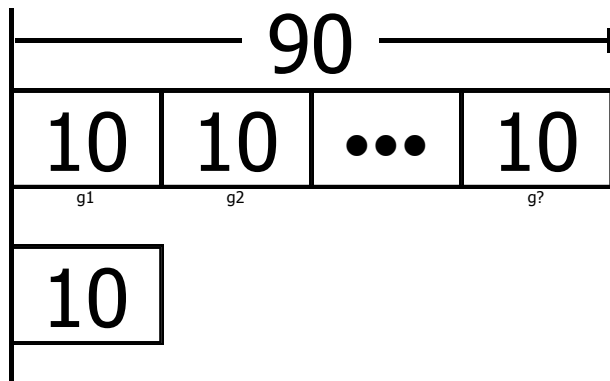

64 is how many times 8? _____

Write a multiplication equation:

D.

90 is how many times 10? _____

Write a multiplication equation:

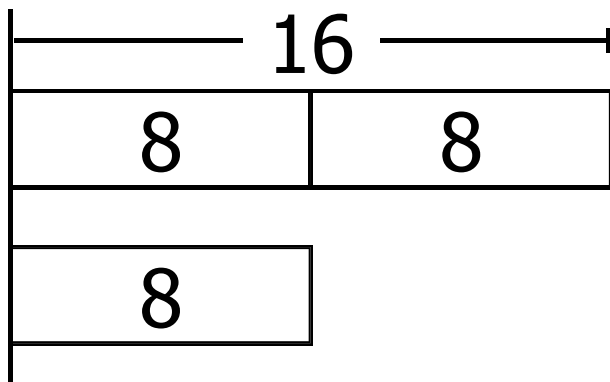

Name: _____

Multiplicative Comparison (P)

A.

16 is how many times 8? 2

Write a multiplication equation:

$$2 \times 8 = 16$$

B.

18 is how many times 6? _____

Write a multiplication equation:

C.

36 is how many times 9? _____

Write a multiplication equation:

D.

35 is how many times 7? _____

Write a multiplication equation:

Name:

Problem of the Day Lesson 16

The records of the top hockey teams are shown below. How many more wins than losses does each team have? How many times as many wins as losses does each team have? Fill in the table below.

Hockey Team	Wins	Losses	Difference	Scale Factor
Islanders	22	2	20	11
Eagles	20	4		
Kings	18	6		
Terriers	16	8		
Friars	12	12		

Name: _____

SCALE MULTIPLY MATCH

Following the prompt below, draw lines to connect each number on the left with the corresponding number in the center and on the right.

← is ↓ times as much as →
(← = ↓ x →)
