How many? _____

Name: _____

1.

How many? _____

2.

How many? _____

3.

How many? _____

4.

How many? _____

1.

How many more make 20? _____

2.

How many more make 20? _____

3.

How many more make 20? _____

4.

How many more make 20? _____

Imagine both parts on ten frames. What is the total?

If needed, draw to check your thinking.

a. $\frac{10}{\text{part}} + \frac{2}{\text{part}} = \frac{\quad}{\text{total}}$

b. $\frac{10}{\text{part}} + \frac{4}{\text{part}} = \frac{\quad}{\text{total}}$

c. $\frac{10}{\text{part}} + \frac{3}{\text{part}} = \frac{\quad}{\text{total}}$

d. $\frac{10}{\text{part}} + \frac{5}{\text{part}} = \frac{\quad}{\text{total}}$

HOW MANY? - A

In each row, draw circles to make the given number.
