

Read the graph to find the total. Cross off shapes to find how many are left.

Spheres

a. $\frac{7}{\text{total}} - \frac{4}{\text{part}} = \frac{\quad}{\text{part}}$

Cones

b. $\frac{\quad}{\text{total}} - \frac{1}{\text{part}} = \frac{\quad}{\text{part}}$

Cylinders

c. $\frac{\quad}{\text{total}} - \frac{2}{\text{part}} = \frac{\quad}{\text{part}}$

Cubes

d. $\frac{\quad}{\text{total}} - \frac{5}{\text{part}} = \frac{\quad}{\text{part}}$
