

Use a clever “dot strategy” to divide the rectangle into 2, 3, or 4 equal parts.

- a. Draw a dot in the middle of the bar. Draw a vertical line through the dot.

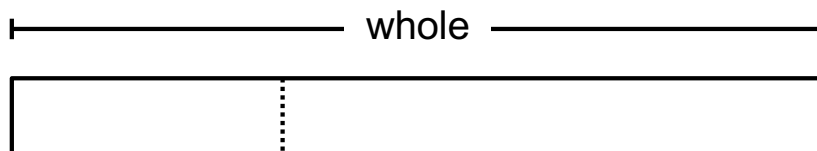

There are _____ halves in the whole rectangle.

- b. Draw 2 halves. Draw a dot in the middle of each half. Draw a vertical line through each dot.

There are _____ fourths in the whole rectangle.

- c. Trace the dotted line to draw 1 third. Draw a line to make 2 more thirds.

There are _____ thirds in the whole rectangle.
