Equal parts in the whole:

There are 9, evenly-spaced fence posts. Seth builds one new section of fence each day. After 5 days, the fence looks like the picture below.

What fraction of the fence has Seth completed so far?

- | | |
|------------------|------------------|
| a. $\frac{3}{9}$ | c. $\frac{5}{9}$ |
| b. $\frac{5}{8}$ | d. $\frac{6}{9}$ |

Enrichment.* If there were 11 posts instead of 9 posts, what fraction of the whole fence would Seth have completed so far?

RAISE THE BAR! - A

Follow the prompts to correctly divide and color the bars.

- The orange bar is below the green bar.
- The orange bar has one more part than the blue bar.
- The yellow bar is above the green bar.
- The yellow bar is divided into eighths.
- The bottom bar is purple. It is divided into sixths.
- The green bar has two fewer parts than the purple bar.
- The top bar is blue. It is divided into halves.
