In the figure below, every 4-sided shape is a rectangle, and:

1. $AB = BC = DE = EF = FG = GH = HI = IJ$
2. $AC = CD = DF = FH = HJ = JA = JD = IE$

How many squares do you see? How many rectangles are there in all?

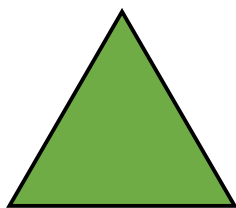

How many?

Squares

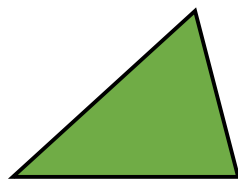

Rectangles

THINK OUTSIDE THE BOX!

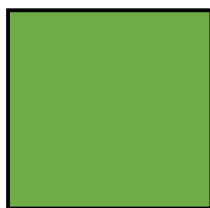

Use the images at the top to complete the prompts at the bottom.

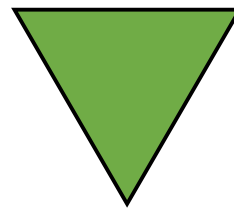

A

B

C

D

Mrs. Jones asked her class to tell her which shape (above) does not belong.

Most of the class answered “C”, because:

Clever Charlie said the answer could be “B”, because:
